

## Agenda item 17.2 CIAM Bureau proposal for 2021 Events Juniors participation

### 1 Proposal CAT 1 juniors

The Junior age limit specified in C.5.1 be increased by one (1) year for participation in CAT 1 events which were postponed from 2020 to 2021. This applies to:

#### **World Championships**

Junior events in F1D, F1A, F1B, F1P, F3J, Space Models

4th team member junior in F2A, F2B, F2C, F2D, F3F, F4CH, F5B

#### **European Championships**

Junior event in F5J

**Reason:** For some of the junior competitors who were preparing to participate in the 2020 Championships these would have been their last championship as a junior. In the case of the Championships which have been postponed from 2020 to 2021 the change of rule will allow them to continue to compete in the 2021 Championships concerned.

### 2 Proposal World Cup juniors

The Junior age limit specified in C.5.1 be increased by one (1) year for participation in Junior World Cup events in 2021. The classes with specific World Cups status for Juniors are F1A, F1B, F1P, F1E.

**Reason:** To allow a last Junior World Cup for the competitors who were in their final year as a junior in 2020.
