

## **Business Development Group Report for 2006**

Little substantive progress has been made with the Business Development Group (BDG) during 2005. The Bureau has concentrated on developing the Strategic Improvement Actions. These will now provide the BDG with a framework within which to work to develop opportunities for the IGC.

The BDG has also been re-organised with Bureau members Arild Solbaken, Eric Mozer and Brian Spreckley added as members of the Group. The intention is that they will seek advice and information from experts as necessary to develop the Business Plan for the IGC. If any delegate wishes to participate in the BDG or knows of a person that would be a strong addition to the BDG, please let me know.

**Bob Henderson**  
**President, IGC**
